

**AMENDMENT**

**U.S. Appln. No. 09/599,002**

**IN THE ABSTRACT:**

Please insert the Abstract as indicated below:

**A B S T R A C T**

A method of disease prognosis which involves determining the genotype of a human or non-human mammal subject for at least one Fc receptor, and identifying whether the determined genotype corresponds to a benign or non-benign prognosis for a disease selected from multiple sclerosis, myasthenia gravis, diabetes mellitus, cerebrovascular diseases, arteriosclerosis, and Addison's disease.
